

15 June 1973

OFFICE OF COMMUNICATIONS NOTICE NO. 41-73

SUBJECT: OC Reorganization

1. On 14 June 1973 the DD/M&S approved the plan to reorganize the Office of Communications as indicated on the attached chart. Details concerning position identification, office locations, etc., remain to be worked out.

2. Goals which the reorganization seeks to achieve include:

- A reduced span of control for the D/CO,
- A reduction in personnel positions,
- Clarification of support points of contact for customers,
- Improved efficiency,
- Clarification of lines of command.

3. The new organization recognizes that Collection and Research and Development functions will no longer be performed by OC. R&D responsibilities will be transferred to the DD/S&T/ODE. The transfer of Collection responsibilities is still being negotiated with the likelihood that most, if not all, functions will be assigned to the DD/O.

4. The plan for implementing the reorganization is to make it effective 1 July 1973. Personnel reductions required by the reorganizations will then be phased throughout FY 1974.
